Weekly Exercise 1 – Tell me joke!

- **Problem:** Print a computer-related joke on the screen.

- **How to proceed:**
  - Follow the process demonstrated in class:
    - Use Repl.it
    - In the text editor
    - Write a header -> 1\textsuperscript{st} part of your program
    - Write an algorithm in English as a Python comment -> 2\textsuperscript{nd} part of your program
    - Translate your comment into Python 3 statement(s) -> 3\textsuperscript{rd} part of your program
  - Press the Run button to make sure your program works as expected
  - Press the Run button to get the link
  - Copy and paste the link in CourSys -> that is the Submission part.

- If you have any issues or questions, post them on Piazza or ask a TA during Open Lab hours or the instructor during her office hours

- Make sure you deal with your questions as you go. Do not wait until exam time.
